According to AMI founder Leonard Perlmutter, "The more consistently the therapeutic practices of meditation and yoga are incorporated into the daily lives of physicians and patients, most symptoms of stress related burnout and chronic complex diseases can be diminished or eliminated." Joel M. Kremer, MD, who is Board Certified in Internal Medicine and Rheumatology in Albany, New York and a recent AMI conference participant, is in full agreement. "This teaching has been an enormous benefit in my personal and professional life. I have less stress, more focus, and am able to serve my patients with greater clarity. It becomes surprisingly

easy now to recognize the many clinical situations in which patients with somatic manifestations of 'dis-ease' could greatly benefit from Yoga Science.”
